#### STUDY PURPOSE

THIS IS A STUDY OF THE HOUSING MARKET IN KOOTENAI COUNTY WITH IMPLICATION TO IDAHO AND THE U.S.

THE FOCUS IS ON WORKFORCE HOUSING.

ITS PURPOSE IS TO ANALYZE THE SIGNIFICANT HOUSING CHALLENGES IN THE FACE OF A LIMITED SUPPLY AND SHARPLY INCREASING DEMAND.

AN UPDATED STUDY FROM THE SPONSORS OF THIS STUDY FOCUSING ON "NEXT STEPS" WILL BE OUT EARLY THIS SUMMER.

#### Local, State, and National Housing Market Factors

# CAUSES OF REAL ESTATE PRICE INCREASES (SUPPLY FACTORS)

- Lack of new residential unit construction during the last decade originating from the 2007-2009 recession.
- World-wide supply chain disruptions affecting lumber, steel, and a wide variety of housing products and goods.
- Skilled labor shortages.
- Skyrocketing land values.
- Excessive planning and zoning.

#### Local, State, and National Housing Market Factors

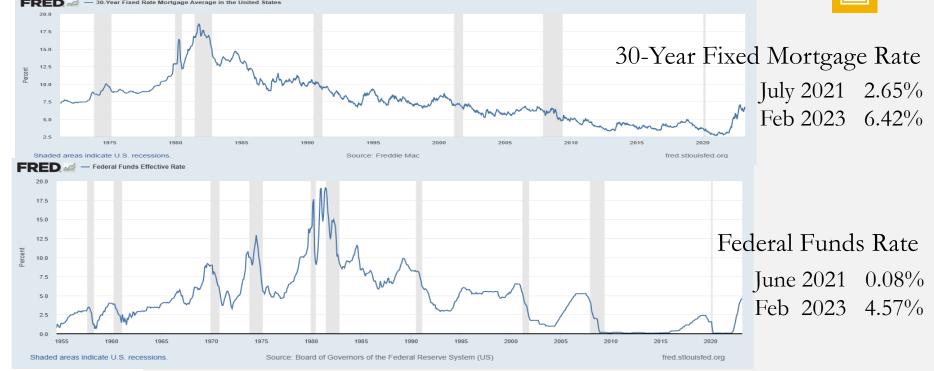

# CAUSES OF REAL ESTATE PRICE INCREASES (DEMAND FACTORS)

- Workers telecommuting from home because of COVID-19 and needing bigger space for a home office.
- Shutdown of recreational activities, travel and entertainment due to COVID-19, creating greater homerelated preferences and activities.
- Continued low mortgage interest rates making home price increases more affordable.
- U.S. government approximate \$6 trillion stimulus and relief packages, increasing consumer spending power.
- Interstate and intrastate migration to Idaho's cities and counties like Kootenai County.

#### CHANGES SINCE THE REPORT

Local, State, and National Housing Market Factors

#### **STATE AND LOCAL POPULATION TRENDS**

#### RAPID POPULATION GROWTH

- ❖ Idaho experienced a 17.3% growth in population over the past decade (2010-2020), making it the 2<sup>nd</sup> fastest growing state in the nation.
- ❖ Kootenai County's population grew 23.7% over that time, making it the 3<sup>rd</sup> fastest growing county in Idaho.
- ❖ Idaho was 2<sup>nd</sup> place 2021-2022 in population growth (1.8%) behind only Florida (1.9%). From 2020 to 2021, Idaho was first in the nation (2.9%) (U.S. Census).
- ❖ The fastest growing city in Kootenai County was Post Falls with a 39.6% increase in population, followed by population growths of 34.9% for Rathdrum and 23.8% for Coeur d'Alene.

#### **Idaho Housing Market Factors**

# I

## IDAHO: THE FASTEST GROWING REAL ESTATE PRICES IN THE COUNTRY

- Idaho ranked 10<sup>th</sup> place in overall "typical" housing prices at \$430,830 Zillow (2/28/23).
- I From August 2018 to February 2023, Idaho had the fastest growing single-family housing prices in the U.S., increasing 77%
- I These statistics are confirmed by CoreLogic, who found from October 2020 to October 2021, Idaho was virtually tied with Arizona as having the fastest growing house prices in the nation.

#### NO.1 Growth in Housing Prices (8/18 to 2/23)

Rank	State	%

## IN 2022, NEARLY 75% OF HOUSEHOLDS CANNOT AFFORD A HOME IN THE CURRENT MARKET

Income Range	Percentage	Affordability
\$0 to \$74,999	62%	Unaffordable
\$75,000 to \$99,999	14%	Marginally Affordable
\$100,000 or greater	24%	Affordable

#### A REVERSAL OF FIVE YEARS AGO

AT 2016 HOUSING PRICES (JUST FIVE YEARS AGO),
ABOUT 75% OF KOOTENAI COUNTY HOUSEHOLDS
WOULD BE ABLE TO AFFORD A MEDIAN PRICED
HOUSE.

CRE Spokane Study: In 2016 [in Spokane], or just 5 years ago, 70% of local employees could afford a \$250,000 median-priced home; by 2021, only about 15% of employees could afford what is now a more than \$450,000 median-priced home (p.19).

# DEMAND FACTORS MARKET DRIVEN - ALMOST ENTIRELY BY INDEPENDENT MARKET FORCES

MYTH: YOU CAN LIMIT THE DEMAND FOR HOUSING BY RESTRICTING SUPPLY.

IF WE QUIT BUILDING HOMES....

NONLOCAL MIGRANTS WILL GO AWAY

- Cities and counties have little control over the migration of people relocating to their communities.
- For Kootenai County, nonresident home buyers will likely have the resources to outbid residents if housing supply is constrained.

# SUPPLY FACTORS - HEAVILY INFLUENCED BY LOCAL GOVERNMENTS AND REGULATIONS

- City and county regulations have influence in the market only on the supply side.
- The National Association of Home Builders estimates that the cumulative regulatory burden per house (at all levels of government) in Kootenai County is \$93,870 or about 19% of the total cost of a median priced home.

#### A TRADE-OFF OF BENEFITS VERSUS COSTS

#### The Market Can Alleviate the Housing Crisis if Allowed

The U.S. has a robust and vibrant competitive construction and real estate industry (including Kootenai County). In the absence of impediments, the industry will provide adequate and affordable housing for the majority of households. *It is not a market problem...it is a government problem.* 

### The Character of Communities can be Preserved while Providing Affordable Housing

Mixed-residential housing can include single-family detached housing, cluster housing, duplexes, and triplexes, that increase housing availability while preserving the character of communities.

#### We have Met the Enemy and they are US!

Most housing regulatory overburden occurs not a the federal or state level, but at the local level. We are the problem! We are also the solution!

# SINGLE-FAMILY DETACHED HOUSING ZONING (I.E., R1 ZONING) REDUCES HOUSING DENSITY AND INCREASES LAND CONSUMPTION

Percent	City
94%	San Jose, California
81%	Seattle
79%	Chicago
77%	Portland, Oregon
75%	Los Angeles, California

#### California's Free-Market Housing Fix

A new state law allows landowners to build four units on most lots zoned currently for one unit. Wall Street Journal 2/3/22. California's Free-Market Housing Fix - WSJ

#### But ... Not So Fast

A wealthy Silicon Valley town has blocked new affordable-housing projects by declaring itself a mountain-lion habitat.

California Town Declares Itself a Mountain-Lion Habitat to Block Affordable Housing (insider.com)

- Houston MSA Population grew 50% (4.8 million to 7.3 million people).
- Population San Jose MSA grew 13% (1.7 million to 2 million people).
- Price of a home in the Houston MSA rose \$52,011 in real terms (30% price growth) (Zillow Average Price Home was \$258,055 as of 3/28/23).
- Price of a home in San Jose increased \$453,774 (59% price growth) (Zillow Average Price Home was \$1,273,535 as of 3/28/23).

# ECONOMIC IMPACTS: THE HOUSING CONSTRAINT IS REDUCING EMPLOYMENT AND OUTPUT IN KOOTENAI COUNTY

	Employment	Sales	GRP	Income
Economic Impacts	-2,749	-\$446,974,814	-\$220,311,945	-\$158,883,710
	Property	Sales/Excise	Income	Total
Fiscal Impacts	-\$4,391,513	-\$7,021,685	-\$4,677,571	-\$16,090,769

THE WORKFORCE ANALYSIS FOUND A DIRECT JOB LOSS OF 1,589 EMPLOYEES. THIS IS A CONSERVATIVE METRIC.

#### SURVEYS OF KOOTENAI COUNTY STAKEHOLDERS

- O Focus groups and individual meetings: Over 50 regional stakeholders were interviewed.
- Three different surveys were sent to respective stakeholders and organizations within Kootenai County: Employers, employees, and Realtors.
- O In total, the CDA EDC received 2,697 responses from all the surveys. The surveys were conducted from July 2021 through September 2021.

#### **EMPLOYEE SURVEYS**

#### Key Findings

- The majority of renters (68%) have seen an increase in rent within the last six months with an average increase of about 29%.
- The average new rent was \$1,443 a month, up from \$1,122 six months earlier.

#### Leading indicator for overall housing (i.e., renters') affordability:

- 21% pay more than 50% of their income for rent.
- 54% of renters spent 30%-50% income to pay rent.
- 24% of the renters spend 30% or less of their income for housing.

#### **EMPLOYER SURVEYS**

Approximately 75% of the firms had difficulty in finding employees and face a labor shortage. The most important reasons cited were the inability to find affordable housing and salary price points

Reason	%
Inability to find affordable housing and salary	44%
Lack of specific skill/technical expertise	32%
Lack of interest/applications	12%
Career changes	4%
Unemployment benefits	3%
COVID related	3%
Daycare	1%
Total Responses Given	100%

#### REALTOR SURVEYS

#### Key Findings

- Approximately 46% of homebuyers are local. The realtors (on average) believe that only 22% of all home sales are coming from residents wanting to change homes.
  - New residents wanting to purchase a home are about 12% of homebuyers.
  - Telecommuters compose about 12% of the homebuyers.
- <u>Approximately 54% of homebuyers are nonlocal:</u> Nonresident purchases include retirees from outside the region (25%),
  - Second home buyers (15%),
  - Investors for rental properties and resales (14%).
- <u>Multi-family sales</u>: About 70% of multifamily housing sales are to nonlocal investors.
